

ZIRahr – LEAVE MODULE

Developer Note

Ensure:

- Smooth UI/UX across employee, supervisor, and HR views
- Real-time updates (no refresh dependencies)
- Configurable workflows from UI (no hardcoding)
- Tight integration with Payroll, Analytics, and Employee Profiles
- Strong validation + audit trail across all actions

EPIC 1: Leave Types, Policies & Configuration

Epic	Story	Task
EPIC 1	Leave type creation	Allow creation of unlimited leave types (Annual, Sick, Maternity, Paternity, Study, Compassionate, Unpaid, etc.)
EPIC 1	Leave configuration	Define: entitlement (days), paid/unpaid flag, accrual rules
EPIC 1	Proration rules	Auto-prorate leave based on join date or contract period
EPIC 1	Carry forward rules	Configure max carry-forward days per leave type
EPIC 1	Carry forward automation	Auto-carry forward during leave year rollover
EPIC 1	Expiry rules	Define expiry timelines for carried forward leave
EPIC 1	Public holidays	Create and manage public holidays per branch/workspace

EPIC 1	Holiday exclusion	Auto-exclude public holidays from leave days
EPIC 1	Weekend handling	Configure whether weekends count or not
EPIC 1	Leave cycle	Configure leave year (calendar vs custom fiscal year)
EPIC 1	Eligibility rules	Define eligibility by employee type, department, or group
EPIC 1	Attachment rules	Configure which leave types require mandatory attachments
EPIC 1	Negative balance control	Allow/deny negative leave balances (toggle)
EPIC 1	Leave encashment (optional)	Configure whether unused leave can be encashed

EPIC 2: Leave Balance Engine

Epic	Story	Task
EPIC 2	Balance computation	Auto-calculate leave balances per employee
EPIC 2	Real-time updates	Update balances instantly after approval/rejection
EPIC 2	Balance breakdown	Show: opening balance, accrued, used, pending, closing balance
EPIC 2	Multi-leave tracking	Track balances separately per leave type
EPIC 2	Period-based balance	Generate balances as of specific date

EPIC 2	Accrual engine	Monthly or yearly accrual configuration
EPIC 2	Adjustment support	Allow manual adjustments (add/deduct days)
EPIC 2	Validation rules	Prevent over-application beyond allowed balance
EPIC 2	Leave liability sync	Sync leave balances to payroll for liability computation

EPIC 3: Employee Self-Service (ESS) – Leave Applications

Epic	Story	Task
EPIC 3	Leave application	Employees apply via self-service portal
EPIC 3	Application form	Capture: leave type, start date, end date, days, reason
EPIC 3	Auto day calculation	System calculates number of leave days
EPIC 3	Attachment upload	Upload supporting documents (medical, etc.)
EPIC 3	Draft handling	Save draft before submission
EPIC 3	Edit application	Allow edit before approval
EPIC 3	Delete application	Allow delete before approval
EPIC 3	Application visibility	Show status: Pending, Approved, Rejected
EPIC 3	Approval tracking	Show next approver in workflow
EPIC 3	History view	Employees see all past leave records
EPIC 3	Conflict warning	Alert if overlapping leave dates exist

EPIC 3	Balance preview	Show available balance before submission
--------	-----------------	--

EPIC 4: Approval Workflow & Governance

Epic	Story	Task
EPIC 4	Default workflow	Supervisor → HR Manager
EPIC 4	Configurable workflow	Allow up to 2 approval levels (configurable)
EPIC 4	Auto-routing	Route based on reporting hierarchy
EPIC 4	Manager logic	Supervisor applications go directly to HR
EPIC 4	HR applications	Route to Admin or designated approver
EPIC 4	Approver actions	Approve or Reject only (no edits)
EPIC 4	Comments	Require comments for rejection
EPIC 4	Delegation	Allow temporary reassignment of approvers
EPIC 4	Escalation	Auto-escalate overdue approvals
EPIC 4	Real-time updates	Immediate reflection of decisions
EPIC 4	Audit logs	Capture all approval actions

EPIC 5: Leave Calendar & Visibility

Epic	Story	Task
EPIC 5	Calendar views	Monthly and weekly views
EPIC 5	Team visibility	Show team members on leave

EPIC 5	Department view	View leave by department
EPIC 5	Color coding	Different leave types color-coded
EPIC 5	Conflict detection	Highlight overlapping leaves
EPIC 5	Today view	Show employees currently on leave
EPIC 5	Planning tool	Help managers plan workforce availability

EPIC 6: Leave Reports & Analytics

Epic	Story	Task
EPIC 6	Leave balance report	Export balances per employee
EPIC 6	Leave transactions	Full audit of leave activities
EPIC 6	Leave utilization	Track usage trends per type
EPIC 6	Department reports	Leave patterns by department
EPIC 6	Absenteeism analytics	Days lost vs working days
EPIC 6	Leave liability report	Monetary value of accrued leave
EPIC 6	Pending requests	Track approval backlog
EPIC 6	Export formats	Excel, PDF, CSV
EPIC 6	Filters	Date, employee, department, leave type

EPIC 7: Leave & Payroll Integration

Epic	Story	Task
-------------	--------------	-------------

EPIC 7	Leave sync to payroll	Sync unpaid leave for payroll deductions
EPIC 7	Leave liability	Feed leave balances into payroll cost
EPIC 7	Overtime interaction	Ensure leave days don't count as worked days
EPIC 7	Salary adjustments	Adjust pay based on leave without pay
EPIC 7	Reporting sync	Align leave data with payroll analytics

EPIC 8: Leave Data Imports & Exports

8.1 Leave Exports

Epic	Story	Task
EPIC 8	Leave balances export	Export current balances (Excel/PDF)
EPIC 8	Leave transactions export	Export all leave records
EPIC 8	Leave liability export	Export financial liability reports
EPIC 8	Period-based export	Extract balances as of a specific date
EPIC 8	Department summaries	Export by department/group
EPIC 8	Filters	Leave type, employee, department, status

8.2 Leave Imports

Epic	Story	Task
EPIC 8	Leave balance upload	Bulk upload opening balances
EPIC 8	Carry forward upload	Upload carry-forward days
EPIC 8	Adjustments upload	Bulk adjustments (add/deduct)

EPIC 8	Template system	Provide downloadable templates
EPIC 8	Validation engine	Validate missing data, wrong formats
EPIC 8	Preview before sync	Show errors before confirmation
EPIC 8	Recall option	Allow cancel before sync
EPIC 8	Sync engine	Push approved data to employee leave accounts

EPIC 9: Notifications, Audit & Compliance

Epic	Story	Task
EPIC 9	Notifications	Email, SMS, in-app alerts
EPIC 9	Trigger events	Apply, approve, reject, reminder
EPIC 9	Reminder system	Notify approvers of pending requests
EPIC 9	Audit trail	Log all actions (apply/edit/delete/approve)
EPIC 9	Data security	Role-based access control
EPIC 9	Compliance	Maintain history for audits & labor laws

EPIC 10: Advanced Enhancements (Recommended)

Epic	Story	Task
EPIC 10	Mobile optimization	Fully responsive ESS and approvals
EPIC 10	Attachment management	Multiple file uploads with previews

EPIC 10	Leave forecasting	Show projected future balances
EPIC 10	Workforce planning	Show impact of leave on teams
EPIC 10	Bulk approvals	Allow HR to approve multiple requests
EPIC 10	API integration	Integrate with external HR/Payroll systems

Final Developer Guidance

This module must be:

- **Simple for employees** → Apply in seconds
- **Powerful for HR** → Full control, analytics, compliance
- **Accurate for payroll** → No inconsistencies in deductions/liabilities
- **Flexible** → All policies configurable via UI
- **Auditable** → Every action tracked
- **Integrated** → Works seamlessly with:
 - Employee Profiles
 - Payroll Module
 - Analytics Dashboard
